

Saxilby and District Multi-Use Games Area (MUGA) Update to Planning Committee

December 2023

- The MUGA fencing and equipment store was granted planning permission in November 2023 with no conditions.
- The updated project list is available to view. Currently timelines for progressing the project to build and completion are unknown due to being dependent on the lease being put in place.
- The clerk and working group can continue to progress other items such as developing the business plan, tender, and specification for the project, whilst the lease and the Charity Commission permission is progressed 'connected party'.
- Further indicative costings are required to ensure the funding will be sufficient to deliver the project.

Recommendations:

- 1. To receive the update.**
