No

¹Risk areas to consider - strategic/operational, likelihood/impact, add to risk register?, any contingency planning needed?

REPORT:

Currently the council has committees named 'planning committee' and 'finance committee'.

Based on the current terms of reference it is argued that these names no longer provide a clear and transparent description to members of the public and councillors what their respective remit are.

Finance Committee

Finance committee terms of reference determine the committees role is "to oversee and advise full council on all matters relating to financial and risk management."² This means that the committee can be reviewing documents and (operational) reports including those that cover H&S.

It is proposed the 'finance committee' is renamed to the 'finance and risk committee'.

Planning Committee

Planning committee terms of reference set out the role of the committee. This has evolved over time and is now broader than providing a consultee response to planning applications in the parish.

It includes reviewing the Neighbourhood Development Plan, considering planning contributions and agreements, highways matters, as well as the project groups now sitting under the committee.

It is proposed the 'planning committee' is renamed to reflect the committee's remit e.g. 'planning and projects committee'; 'development and projects committee'; or 'development committee'.

RECOMMENDATION(S):

That Full Council notes the report and:

- 1. Renames the 'finance committee' the 'finance and risk committee'**
- 2. Renames the 'planning committee' the 'planning and projects committee'**
