

## Update on the LCC cycle path connection between Lincoln and Saxilby (NDP project 1.4) to Planning and Development Committee

**Report to:** Planning and Development Committee 24-07

**Report by:** Clerk

**Power/duty which decision falls under:** Project to be carried out by the County Council

**Which council objective(s) it falls under:**

- Maintain and improve community facilities and amenities
- Retain and encourage employment and tourism opportunities
- Improve the well-being of residents
- To foster public participation and engagement
- To recognise the climate and biodiversity emergency and it should be considered as the basis of all decision and policy making

**Consideration on carbon reduction:**

Providing a connection would increase access to sustainable forms of travel connecting Saxilby to Lincoln. It provides the opportunity to reduce the number of car journeys to and from the parish.

**Consideration of risk management in relation to proposal:**

- The project is a county council project, which was re-initiated due to its inclusion in the Neighbourhood Development Plan (NDP).
- Potential impact on public engagement and reputation if the project does not come into fruition, having been identified by the community as an important project.

**Public Sector Equality Duty (*Consider or think about how policies or decisions affect people who are protected under the Equality Act*)**

- The connection would be free to use and accessible, within any geographical limitations.

## **REPORT:**

The signage remains outstanding, which was expected to be in place by the end of the month. This has been chased in July and a response for an updated installation date is pending.

An official opening, when the path is completed, will be arranged.

Councillors will be updated on the arrangements and the opening will be advertised to local residents and the wider area via the council's usual communication channels.

## **Proposal(s):**

- **To receive the update.**

# Hedges, Fencing and Noise Barriers

SD/3/2

- Notes**
1. Specification Clause 306 applies unless otherwise stated in appendix 1/15 or appendix 3/2.
  2. Preservation treatment as specified to Clause 311.
  3. To BS 1722 Part 7.
  4. Post spacing reduced as necessary for curved section.
  5. Grade ST3 concrete footings to Clause 2602 (if specified).
  6. Where the fence forms a boundary between the highway and private property, the prick post and any barbed wire shall be fixed to the private property side unless otherwise stated in appendix 1/15.
  7. All nails, extension arms, fittings shall be galvanised to BS EN IOS 3634-2
  8. Where barbed wire is required in appendix 3/2 or 1/15, it shall be mild steel complying with BS 4102, two ply, 2.5mm dia. four barbs at 85mm spacings - zinc coated, complying with BS EN 10244-2, attached to an extension arm bent at an angle of 45° from the vertical, and shall be able to accommodate 3 strands of barbed wire, each strand being 100mm apart.

This is a typical detail and may require conversion to a full scheme specific drawing.

**Disclaimer :** Before making use of this detail, any designer or third party must ensure that it satisfies all requirements of the scheme to which it is being applied. Lincolnshire County Council accept no responsibility for third party use of this Standard Detail.

## Appendix 2: Background

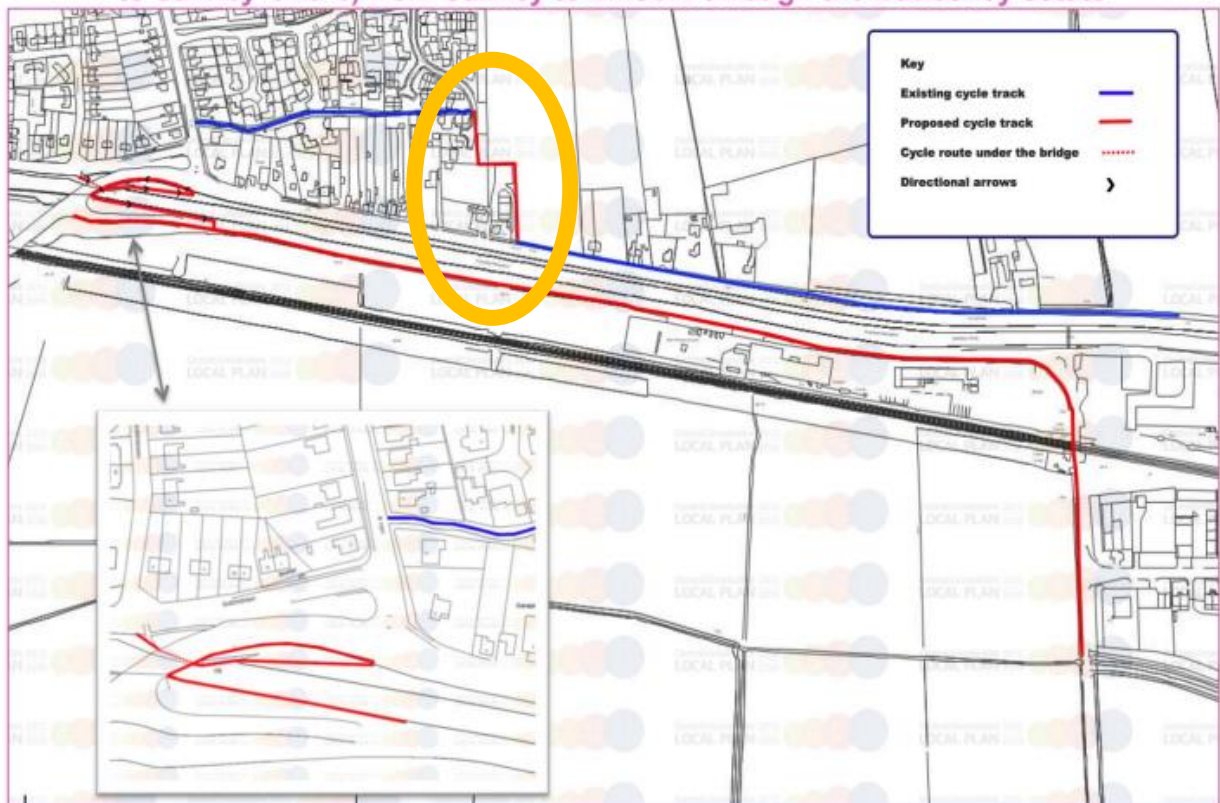

The Saxilby with Ingleby NDP project to complete the cycle track connection from Lincoln to Saxilby from the A57 through the Daubeney estate and Sellars Walk is an NDP project to improve connectivity in the area.

The county council confirmed in 2019/20 the project would be progressing and would be completed in that financial year.

Lobbying from the parish council has ensured the project has continued to fruition and the investment has not been lost from the area.

### Appendix 1: Map of Proposed Cycle Connection

**Proposal Map 6: Proposed cycle/footpaths from a) Saxilby Business and Enterprise Parks to Saxilby and b) from Saxilby to Lincoln through the Daubeney estate**
