

Update on the LCC cycle path connection between Lincoln and Saxilby (NDP project 1.4) to Planning and Development Committee

Report to: Planning and Development Committee 24-10

Report by: Clerk

Power/duty which decision falls under: Project carried out by the County Council

Which council objective(s) it falls under:

- Maintain and improve community facilities and amenities
- Retain and encourage employment and tourism opportunities
- Improve the well-being of residents
- To foster public participation and engagement
- To recognise the climate and biodiversity emergency and it should be considered as the basis of all decision and policy making

Consideration on carbon reduction:

Providing a connection increases access to sustainable forms of travel connecting Saxilby to Lincoln. It provides the opportunity to reduce the number of car journeys to and from the parish.

Consideration of risk management in relation to proposal:

- The project is a county council project, which was re-initiated due to its inclusion in the Neighbourhood Development Plan (NDP).
- Potential impact on public engagement and reputation if the project does not come into fruition, having been identified by the community as an important project.

Public Sector Equality Duty (*Consider or think about how policies or decisions affect people who are protected under the Equality Act*)

- The connection would be free to use and accessible, within any geographical limitations.

REPORT:

- The gates missing gates have been resolved.
- The ribbon cutting ceremony is being organized:
