Subject: Request for quote slitting and sharp sand spreading on the recreation field

Lydia

Hi

The charity seeks a quote for the following works on the recreation field, if the Parish Council is willing to provide the service.

1. Slitting

This for the whole field including football pitches, using the council's slitting machine.

2. Spreading sharp sand

Although the whole field would benefit, it may be better for a quote per acre. Typically the goalmouth areas are treated, but with the increased usage of the field by the general public, this is likely to be required on all well trodden areas.

The sand can be provided on site.

The charity would work with the football/cricket and Hub rather than each entity asking for the same service.

Regards

Peter Hewes
