

Leaf sculpture plaque wording:

*This memory leaf by James Sutton Sculpture was installed in 2023 and forms part of Saxilby's Waterfront Regeneration Project.*

*It honours the fruit trees planted along the Fosdyke in 1953 to celebrate the coronation of Queen Elizabeth II. As those trees head towards the end of their life, new ones have been planted to continue the cycle of renewal.*

*Each leaf represents a sponsor, whose support has helped to preserve and enhance the waterfront's green landscape for future generations.*
