

2025 overview for Events Working Group

As we have now come to the end of the Event's Working Group activities for 2025, and with no urgent matters requiring discussion, it was decided not to hold the proposed December meeting of the Events Working Group.

This update provides an overview of the Working Group's achievements from its first meeting in June 2025 to the present day.

The working group comprises dedicated councillors and members of the public/community groups, who have worked collaboratively throughout the year to plan and organise events for the benefit of the parish. Meetings have taken place on a semi-regular basis as required.

Events organised and/or supported by the Working Group in 2025 include:

- World Wellbeing Week (comms posts)
- Burial ground volunteer mornings
- Yard Sale (whole community event)
- Council stall at the Fun Day
- Hosting the Open Sports Day
- Supporting Remembrance Day service
- Better Housing, Better Health Workshop
- Wellbeing Clinic
- Christmas craft session – lantern making (as part of Christmas Light Switch-on)
- Christmas Advent Windows village display

An approved calendar of events for 2026 is now in place, and we look forward to continuing to provide a varied programme of activities for residents in the year ahead.

I would like to thank all members of our Events Working Group for their time and commitment to providing events for the benefit of our community. Thanks are also extended to the admin team, communications team, and caretaking team for their support in ensuring the successful delivery of these events. We can now rest briefly over the holiday period and recharge in readiness for a new year ahead.

I wish all of you a very Merry Christmas and a Happy New Year.

Regards,

Cllr Saunders

Recommendations For Planning and Development Committee:

- 1. To note the update**
- 2. To note the action log**
