

**Saxilby Waterfront Working Group
Update for Planning and Development Committee
Wednesday 18 February 2026**

1. Heritage Lighting: Masterplan and Project Plan Item 6.4

The heritage lighting has been ordered.

2. Information Boards: Masterplan and Project Plan Item 6.13

The Saxilby and District History Group has worked in partnership with the Saxilby Waterfront Working Group to develop the content for the replacement information boards.

The new signage provides interpretation of the history of the area, including reference to the regeneration project, and has been designed as a co-ordinated set.

This project was approved by Planning and Development Committee meeting April 2025, subject to sufficient funding being secured.

3. Communication

It is proposed that the Canal & River Trust (CRT) and the Saxilby and District History Group are formally notified that the six existing information boards will be removed and replaced with four new boards.

Arrangements will need to be made for the removal of the existing boards, and Communications will inform residents accordingly.

4. Volunteer High-Visibility Jackets

Additional high-visibility jackets are required for volunteer working days. It is proposed that ten large and ten extra-large jackets are purchased using funds allocated within the Waterfront budget

To receive an update and agree recommendations

- Agenda item 2: To approve progression of the replacement information boards
- Agenda item 3: Approve notification to CRT and the History Group regarding the removal of the old boards
- Agenda item 4: To purchase 20 additional high viz volunteer vests (budget £170)
