Agenda Item 23: Approval for Return of Donated Scaffold Tower to SPRGC

Purpose

To seek approval for the transfer of a scaffold tower previously donated to the council, to Saxilby Public Recreation Ground Charity (SPRGC).

Background

The scaffold tower was originally donated to the parish council for use in maintenance activities. The donator has now requested its return for operational use within SPRGC management responsibilities.

Considerations

- The tower is not essential for parish council operational delivery, with the council having a platform.
- Returning the item will support efficient resource use within SPRGC and avoid duplication of equipment.
- The council must ensure that the transfer of the asset is authorised and the asset register updated.

Risks

- Minimal financial impact – donated and is surplus to council requirements.
- Reduces ongoing inspection and storage responsibilities.

Recommendation

That the Council approves the transfer of the scaffold tower to SPRGC.
