Council News

Saxilby Waterfront Project Update

We're delighted to update residents that Saxilby Waterfront Working Group has achieved its core objectives. These were set in 2017 when the project started, based on community consultation. The area has benefited from many improvements including improved green spaces, seating, tree and hedge planting, habitat improvements, sculptures and artwork, and the refurbishment of the footbridge.

"Thanks to the dedication of members of the group, past and present, Bridge Street Conservation Area has been taken off Historic England's Heritage At Risk Register. The group has worked hard to protect and celebrate the area, making the waterfront a place for everyone to enjoy. On behalf of the council, I would like to thank volunteers for their tireless commitment and efforts that have made this possible."
Councillor Saunders, Chair of the parish council

Volunteers from the group will continue to safeguard and promote the waterfront's historic character through a new **Saxilby Waterfront Group**. This will operate as a community group independent of the parish council. More information on the new group can be found within this edition of the Foss Focus and on their website: www.saxilbywaterfront.co.uk.

Saxilby MUGA Project Underway

Exciting news! The long-awaited Saxilby and District Multi-Use Games Area (MUGA) has now secured full funding from Lovell Homes, the FCC Communities Foundation, West Lindsey District Council, Saxilby Sports Hub, and Lincolnshire Co-op. This £150,000 project comes entirely from grants and s106 (developer) contributions – no parish precept funds have been used.

Construction began in March 2026, with Fosse Contracts Ltd undertaking the build. In week one, the old tarmac was removed, the northern wall taken down, and site preparations started for the new MUGA footprint. Week two saw new kerb edgings installed and a new retaining wall being constructed next to the car park.

The build is expected to take around 10 weeks, and updates will continue as progress is made.

The council thanks all volunteers, councillors, trustees, and funders who have helped make this community project a reality.

Westcroft Green Space Consultation Update

Thank you to residents who shared their views on the Westcroft Green Space Project.

What you told us:

You want to keep the space green, wildlife-friendly, and accessible for all ages. You told us that almost half of respondents currently use the space, and people would use it more if improvements are made. Residents would like to see natural play areas, quiet sensory spaces, and comfortable seating. Some residents were also keen to volunteer and help care for the park.

Next steps:

The parish council is exploring a zoned design that will provide play, fitness, quiet sensory areas, and dog-friendly spaces, to balance the needs of different user groups. We're developing designs for the area, including play and fitness equipment which will be shared for residents' views. Thanks to your input, the future of Westcroft Green is taking shape! To find out more and read the full consultation report please visit <https://bit.ly/4UMajZ>

The full consultation report can be found on our website at <https://bit.ly/3NSBJxP>

Burial Ground Volunteer Sessions

Monthly volunteering sessions will be starting this month at St Botolph's Church Burial Ground. Sessions will take place on the third Thursday of each month, April to October, from 10am to 12 noon.

Volunteers are needed to help with light maintenance such as tidying, pruning, and general upkeep. No experience is needed, and everyone is welcome.

Please wear sturdy footwear, and bring gloves and small hand tools if you have them.

H2East Consultation

A consultation is now open on proposals for the H2East Pipeline, a planned underground hydrogen pipeline connecting the Humber to Nottinghamshire.

A proposed route passes close to the Saxilby and Ingleby. Residents may wish to review the plans and share any comments.

The first stage of consultation runs from 3 March 2026 until 14 April 2026. This stage seeks feedback on:

- The proposed underground pipeline route
- Search areas for Hydrogen Above Ground Installations

You can explore the plans and submit your comments here:

<https://h2east.co.uk>

<https://projectmap.h2east.co.uk>

If this proposal may affect you or your local area, you are encouraged to take a look and have your say.

HELP! DONATIONS NEEDED!

For more information, please see our website:

<https://bit.ly/3NBU4Pr>

SAMPLE PLINTH (WADDINGTON)

We need your donations! Do you have any surplus building materials that could help us to construct a brick plinth to house our community mosaic, created by local school children in 2012?

All contributions welcome!

We need:

- Standard engineering charcoal grey bricks (x100)
- Engineering charcoal grey bullnose bricks (min. of 124)
- Engineering charcoal grey bullnose corner bricks (min. of 4)
- Reclaimed bricks (x516)
- Backing and below-ground Class A blocks (min. of 120)

We are pleased to confirm that the parish council has formally accepted the Independent Examiner's Final Report on the Saxilby with Ingleby Neighbourhood Development Plan.

The next step is a referendum. We are currently awaiting confirmation of a date from West Lindsey District Council. The cost of holding the referendum will be covered by the district council.

Ahead of the vote, further information on the Plan and what it means for the future of Saxilby will be shared with all households.
