

Green Space Area Signage

Background

- Council have previously requested signage is installed on green spaces, in-line with good practice as well as the latest play area inspection report, which advised signage for Mill Lane facilities.
- Signage is installed on the Memorial Field Play Area and Wheeled Park, which can be used as a template, so the signage remains consistent through the parish (see image below). However, due to the signs being for green spaces it is suggested they are smaller and installed on one pole - as less information is required
- An example of draft wording is included below
- A quote is currently being obtained for the signs and installation

Draft Wording

Welcome to xxx green space

Add SPC Logo
