

Agenda item 15

To ratify a decision from February Planning Committee to set aside the second tranche of CiL income and the remaining developer grant (from the Church Road bus shelter), towards a replacement bus shelter on Church Road (Co-op side), pending further funding

Planning Decision

This is the decision from the planning meeting:

027/22 To agree allocation of the latest CiL income and remaining developer grant

Cllr J Willox proposed, and it was resolved to recommend that Full Council sets aside the CiL and remaining developer grant towards a replacement bus shelter on Church Road (Co-op side), pending further funding.

Background

A bus shelter (inc. install) like the new one on Church Road with 3 bays, perch seat, and full sides is circa £3,500+vat and the old one also needs removing

Currently a total of £2,318 remains from the second tranche of CiL and the developer contribution towards a bus shelter

A further £1,200 (est.) would be required to order the shelter.

Proposal

It is proposed the council ratify the recommendation to set aside the 2nd CiL payment and remaining developer grant towards the bus shelter.
