

## Saxilby and District MUGA Update January 2023

- Following the withdrawal of the MUGA planning application to the south of the community centre on the recreation ground, an invitation for other sites around the parish was advertised and local landowners were contacted. No further sites came forward.
- The MUGA Working Group met in December 2022 to consider next steps to progress the project. The meeting agreed to make the following recommendations to full council:
  1. To upgrade the concrete tarmac basketball/MUGA pitch at the recreation ground due to no other sites coming forward elsewhere in the parish
  2. For council to support a funding application to the Football Foundation towards the project

**Proposal: For full council to ratify the above recommendations.**
