

Saxilby with Ingleby Full Council

Full Council 23-06

Agenda item 19: Dispose and sale of assets

Dispose and sell:

1. Large chest Freezer – kitchen – not required – not being used. Another one also available
2. Speakers and disco lights – upstairs function room – not required – if the room is hired for events and a disco – a mobile disco brings their own equipment. The speakers and lights have not been used for at least three years. The function room requires refurbishment in due course and these items will require removal to facilitate this work taking place.
3. Slush machine – not in use
4. Tills – not in use
5. Ipad – old ipad not in use 3
6. Coffee machine and grinder – The machine is not working. When the company came to service it, they advised a number of parts now need replacing, making it uneconomical to repair (£900, purchased 2008 ELEC0041) – can be sold for parts

Items relating to the council providing a bar are not required, as the council previously agreed that the bar would be leased out (this will be able to be progressed, when a lease is in place with the recreation round charity, to enable the council to sub-lease the bar). When the bar is leased the leasee would have their own items such as tills.

Molson Coors also currently have their own equipment in the two bars and advice is being obtained on what they want to happen with the equipment in the meantime. This will be fed back to full council in due course.

Recommendation: Officers dispose of the items through sale, seeking to obtain best value from their sale.
