

Locality funding

<https://neighbourhoodplanning.org/>

NDP Review

“If you're working on a neighbourhood plan or neighbourhood development order, you can apply for grant funding of up to £10,000. Further grant funding is available to groups meeting certain criteria.”

The council is using a planner to support this process and requires funding for this and also consultation materials and support at a tune of £7,500.

Support is also required for a housing needs assessment and Character assessment.

Recommendation: Council approve a grant application for the above items.
